IN THE WORLD OF FINANCE

The general run of commission house literature is decidedly optimistic in its tenor, and, as a rule, the prediction is ventured that we are in the midst of a bull market, with the money question the only cloud upon an otherwise bright horizon.

Baltimore and Ohio was one of the leading features yesterday rising to a new high level at 125%, a price more com-mensurate with a trunk line paying 6 per cent. If the Harriman plans are carried through it is predicted that the stock will sell at least 20 points higher.

The Safest Investments

Are those that do not depend upon the financial responsibility or the stability of any individual or corporation. First deeds of trust (mortgage) notes liberally secured on good real estate in the District of Columbia constitute "gilt-edge" investments. These are the only kind we make and supply to investors. They bear interest, payable semi-annually, at the rate of Five per cent per annum, and may be had of us in amounts from \$500 and upward at par and accrued interest.
